Certified Tower Technician

FREE training for the first 12 accepted applicants!

Aiken Technical College

What is the Certified Tower Technician course?

The Certified Tower Technician course prepares students for entry-level wireless tower technician level one positions. The certification consists of 120 hours of state-funded training in the following areas: Telecommunications Regulations and Standards, Worksite Hazard Awareness, Authorized Climber, Rigging, LTE Installation, Basic Electricity, First Aid/CPR, and OSHA-10. In addition, students will participate in tower climb activities to incorporate skills learned in the classroom setting.

Who qualifies for this free, state-funded training?

Qualified applicants are looking to start a career in the telecommunications industry. Applicants must:
- Be at least 18 years of age
- Hold at least a high school diploma or GED and provide documentation
- Be eligible to work in the United States
- Be physically able to carry a body harness weighing 70 pounds
- Be committed to completing the program

Why become Tower Technician Certified?

Employers are **ready to fill** these positions. Average salary is $16-$21/hour, and in some places, higher.
- Gives exposure to various types of tower technician skills, levels, and positions
- Prepares for a high-demand career in the telecommunications industry
- Opportunities to sharpen your employability skills
- Opportunities to attend "invitation only" job fairs

*Enrolling in and completing this program does not guarantee employment and does not guarantee starting at the average salary.
