Introduction

The Services and Operations Assessment Report (SOAR) is a survey used to determine student satisfaction of non-academic services provided at Aiken Technical College (ATC). This survey was administered during the fall 2016 semester over an 8-week period, which included the winter break, sampling the ATC student population of 2461. There were 429 students who responded to the survey with 18 of those being duplicates. For the survey analysis all student responses were used. Students had the option of responding to all questions, but not all students did. The assessment included questions regarding non-classroom services offered to ATC students. This report includes the methodology, key findings, summary of departments, comparison of respondents to currently enrolled student population for the fall 2016 semester and summary of open-ended questions.

Methodology

Survey Development

The survey was developed in 2014 and was used to gather students' feedback on the ATC services and operations that impact students. Survey Monkey was the tool used to administer the survey. The survey was sent out from the Marketing Department inviting all current fall 2016 semester students to participate. An incentive of a \$10 Walmart/Sam's Club gift card was offered to the first 300 students who responded to the survey.

Sampling

A campuswide invitation was sent to all fall 2016 enrolled students with the goal to obtain a larger sample than the 2014 survey. The enrollment for the fall 2016 semester was 2461 unduplicated students. The Planning & Research (P&R) Department collected a data file, which is available for verification. The survey sample is a collection of students from that file. A total of 429 survey responses was collected. One respondent surveyed did not give any identifying information but did answer the survey, which was included. It was found that 18 responses were duplicated. The duplicated answers were kept and used for the analysis, but were not used when doing the demographic comparison. Accounting for the duplication, this number represents 16.7% of the student population at ATC, which is considered a strong representative sample with confidence level of 95% and a margin of error 4.

Contact Method

The initial invitation to participate in the survey was sent out via email to all students enrolled at ATC for the fall 2016 semester. The email gave the link to the survey and the information concerning the gift card. Subsequent invitations were sent weekly via students' email until January 9, 2017. This gave students ample time to participate, and at a time that was convenient for the student to complete the survey.

Survey Administration

The survey administration was coordinated by the P&R departmental staff from November 18, 2016 through January 15, 2017. Once the student completed the survey, they were told to visit the P&R department office with their student identification (ID) to pick up the gift card. The student's name and ID were verified on Survey Monkey as to whether the student had completed the survey. If the ID matched to a completed survey, students received a gift card. If the student had not completed the survey, they were requested to complete the survey, and return afterwards to pick up a gift card. The survey was terminated on January 15, 2017.

Key Finding

Technology Usage by Students

Students recognized that technology devices and services are an important component of their personal and academic life. Based on the SOAR Student Survey, 92% of students own and use a smart phone, and 83% own and use a laptop. This finding is parallel to survey responders choosing school email as their preferred method of contact on ATC deadlines and activities. Over 50% of the students reported checking their email at daily or almost daily.

Results also confirmed the importance of technology in students' academic success. Ninety-six percent of students indicated that they used technology devices for viewing course materials. In addition, students utilized devices for communicating with their instructor and/or administrator, and well as completing/posting assignments. Eighty-six percent (86%) of the students revealed that technology devices contribute "very much" to their learning experience.

Student Utilization of Services

Based on the survey results, there are four identifiable areas that had a low utilization of students. These areas were: (a) ISM Help Desk, where 82% of the students reported having never requested support from the Computer/IT Help Desk; (b) Counseling Services, 51% of students were aware of the services but have not used them; (c) Career Services, 54% indicated they were aware but have not used these services; and (d) Academic Success Center Workshops (ASC) where 63% of the respondents do not use the tutoring service offered and 92% of the respondents reported as never attended a workshop offered by ASC.

Student Awareness of Services

Student awareness of services was at least moderate to high in the majority of departments. Two areas where awareness levels of services being offered may require further promotion or review are: (a) Counseling Services, 43% were unaware of the free counseling services; and (b) Academic Success Center, 39% of students indicated they were unaware of the workshops offered by the ASC.

Summary of All Services

Information Technology (IT)

Twelve percent (12%) of students reported requesting support from the IT help desk. While this is a small percentage, the services that were needed are shown in the table below. It should be noted that 23% of students reported needing IT support outside of the normal hours of operation, which are Monday – Thursday 8 AM - 6 PM and Friday 8 AM – 1 PM.

Service	Percentage
Email	31%
Blackboard	53%
Logging onto MyATC portal	43%
Logging onto a computer in a classroom or lab	23%
Using WebAdvisor	25%
Help with using software on computers in classrooms or labs	27%
Other	13%

Website

Students were asked to evaluate the ATC's website. Ninety-four percent (94%) reported that the information on the ATC website is up-to-date. Students also stated "strongly agree" or "agree" (combined percentages) with the statements concerning the information provided on the website.

The table below shows these percentages.

Statement	Percentage
It is easy to find information I need about my program of study on the ATC website.	92%
It is easy to understand the information about my program of study on the ATC website.	93%
There is enough information on the ATC website for me to make decisions about my program of study.	90%

Students were asked if they were helped by ATC Career Services. The following table shows how students responded to a specific services offered by Career Services and its percentage for that service.

No other information was obtained.

Service	Percentage

Develop or improve my resume	21%
Develop my interview skills	21%
Find a career or job	25%

Distance Education/ Online Courses

When respondents were asked about their level of interest in taking distance education (online) courses at ATC, 39% were "very interested" and 34% were "interested". If presented with the option of having their entire academic program in an online format, 33% of students were "very interested" and 33% were "interested". This shows a strong interest in online coursework in general.

Test Center

The Test Center was evaluated on several different aspect of services. The table below gives the percentages of students reporting being "very satisfied" or "satisfied" (combined percentages) with each of the services offered.

Service	Percentage
Hours of operation	87%
Clear instructions from the Test Center staff	86%
Helpfulness of the Test Center staff	85%
Convenience of the registration process	87%

Library

Students responded using the library 73% of the time at least once during the semester. For services offered by the library, students stated that the preferred method to be informed about the library services or resources was through the ATC email account, which was 70%, while 89% stated that the hours of the library are adequate. It should be noted that students responded that using the library resources to look for information using library website, library staff, EBSCO, and library catalog was low. The most used resources to look for information was computer/internet access, which was 76%. When asked about level of awareness of library services, 40% of the students responded that they are aware of all services offered except inter-library loan.

Academic Success Center (ASC)

Of those students who have received tutoring from the ASC, 86% of students “agreed” and/or “strongly agreed” that the ASC helped them to succeed as a student. Forty-three percent (43%) of students pointed out their grades improved about one letter grade while 66% students stated their grade improved one or more letter grades.

Enrollment Services Center

Fifty-eight percent (58%) of the students were able to complete their enrollment process in one or two visits to ATC. For other students, 42% needed three or more visits to complete the enrollment process.

Counseling Services

In the advisement process, the findings revealed positive results. When students were asked if they knew their assigned advisor, 88% indicated that they did. After meeting with their ATC advisor, 57% of students completed their online registration while 54% of students “strongly agreed” that their advisor helped them to understand how their program of study would improve their career options.

Marketing/Recruitment

Forty-four percent (44%) of the respondents learned about or knew of ATC through a friend or family member while 29% of respondents discovered ATC through personal research. It should be noted that T.V., newspaper articles/advertisement, and internet advertisement ranked last with only 11% as a means of discovering ATC.

Financial Aid

Eighty-two percent (82%) of the students taking the survey indicated that they had received financial aid from ATC for their college expenses. Ninety-one percent (91%) expressed that they were “satisfied” with the Financial Aid Office with 9% of survey responses showing some level of “dissatisfaction.”

Cashier's Office

Of those who used the cashier's office, 77% of students indicated the system for making payments at the ATC Cashier's Office was efficient. Twenty-two percent (22%) stated they had not used the Cashier's office. The results also showed a 33% level of satisfaction with the *Higher One* student refund process. Students also scored the Cashier's office's reliability for sending payment information on time at 92%.

Bookstore

While the bookstore is usually considered for buying textbooks, other items may be purchased by students. Seventy-eight percent (78%) of students surveyed stated using the bookstore for other items in some capacity while 22% said they never used the bookstore.

Security & Grounds

As to the campus itself, 99% of students “strongly agree” or “agree” that the grounds and buildings are kept clean and the campus is safe and has adequate security.

Survey Respondents Compared to Student Population

The degree to which the final sample of students taking the survey was representative of the currently enrolled students can be explored. The survey respondents and student population by academic divisions, race, ethnicity, gender, full/part-time students, and age groups were compared. For a true

representation of the student population in the tables below, the survey respondents and student population were unduplicated. The count of unduplicated respondents is n = 411 and the student population is n = 2461.

Table 1. Academic Division Proportions, Survey Respondents vs. Student Population

Division	Survey Respondents (n=411)	ATC Student Population (n=2461)	Percentage Difference
BCTT	10.5%	12.8%	-2.3%
GEN	38.0%	42.1%	-4.1%
HSC	42.1%	30.8%	11.3%
TEC	9.5%	14.3%	-4.8%

Discussion: Comparing the survey respondents to the student population for each division, it appears to be similar except for the Health Science. This division had an overall higher response rate than the student population.

Table 2. Major Race, Survey Respondents vs. Student Population

Race	Survey Respondents (n=411)	ATC Student Population (n=2461)	Percentage Difference
American/Alaska Native	1.0%	1.1%	-0.1%
Asian	1.2%	1.3%	-0.1%
Black or African American	37.2%	31.9%	5.3%
Hawaiian/Pacific Islander	0.0%	0.3%	-0.3%
Non-Resident Alien	0.0%	0.3%	-0.3%
Unknown	4.1%	3.9%	0.2%
White	56.4%	61.2%	-4.8%

Discussion: Comparing survey respondents to the student population appears to be similar.

Table 3. Ethnicity, Survey Respondents vs. Student Population

Ethnicity	Survey Respondents (n=411)	ATC Student Population (n=2461)	Percentage Difference
Hispanic/Latino	4.6%	4.8%	-0.2%
Non-Hispanic	85.9%	85.0%	0.9%
Unknown	9.5%	10.2%	-0.7%

Discussion: Ethnicity is comparable between survey respondents and student population.

Table 4. Gender, Survey Respondents vs. Student Population

Gender	Survey Respondents (n=411)	ATC Student Population (n=2461)	Percentage Difference
Female	81.0%	62.0%	19.0%
Male	18.7%	38.0%	-19.3%
Unknown	0.2%	0.0%	0.2%

Discussion: Gender appears to play a significant role in the survey. More females responded to the survey than males, and the response rate is more skewed than the student population. No apparent reason can be documented for this.

Table 5. Part-Time/Full Time Status, Survey Respondents vs. Student Population

Status	Survey Respondents (n=411)	ATC Student Population (n=2461)	Percentage Difference
Full-Time*	31.9%	31.7%	0.2%
Part-Time*	68.1%	68.3%	-0.2%

*Full/Part-time classification followed IPEDS definition. Full-time is defined as the total number of credits ÷ by 12.

Discussion: This appears to be comparable across the survey respondents and student population.

Table 6. Age Bands, Survey Respondents vs. Student Population

Age Band	Survey Respondents (n=411)	ATC Student Population (n=2461)	Percentage Difference
Under 18	1.0%	4.1%	-3.1%

41 – 50	9.5%	5.5%	4.0%
Over 50	1.5%	2.3%	-0.8%

Discussion: When comparing age bands for the survey respondents to the student population, it appears to be similar.

Open Ended Question Responses

Students were asked several open-ended questions about the various services offered at ATC. These questions allowed the students to make comments and/or opinions if so desired. Below is a summary of those findings. The actual question with the corresponding comments may be found in the Appendix.

Information Technology

When students were asked about needing support from the Computer/IT help desk outside of normal hours of operations, six students responded. While this is not a significant number, getting these responses informs ATC that there is a need for more hours of operations from the IT help desk outside of normal hours of operations.

Library

Students also responded to needing additional hours to physically access the library. Twenty-six students responded that there needs to be additional hours of operations at the library. The times listed were varied, but students stated longer hours during the week, additional hours for Saturday, and that the library should be opened on Sunday. Students listed reasons for this as wanting a quiet place to study, needing a quiet place to do research, or a place to work on homework.

Additionally, students were asked for suggestions for improving the library and/or library services. There were a variety of answers, some of which included the hours of operations stated above. Other student responses included: comfortable chairs, make sure the printers have ink and paper, a café, a few more computers, quieter place to study, more study rooms, better temperature control, faster speed on computers, more sitting room with privacy, free printing, and a safer environment by showing ID to enter.

Academic Success Center

Students were asked for suggestions to help improve the services for ASC. Suggestions varied for improvement, but the main theme throughout the suggestions was getting more information out about what ASC has to offer. Suggestions for this included posters, emails, and advertising the different subject areas that have tutoring available. Some of the suggestions were: evening hours, Saturday hours, tutors could benefit from various teaching style, make sure all tutors in every subject are in there on the right time, more tutors, needs to advertise more to students, knowledgeable tutors in different subject areas, needs more nursing student tutors, more math/statistics tutors, be aware of working students' hours so they can attend events, and password used to enter should not be social security number.

Website

When students were asked about their experience using the ATC website, 82% responded with a positive experience. The majority of positive responses included "good," "okay," "very helpful," and "great" to name a few. A few students responded that that the website needs to be kept current and updated more often.

Financial Aid

Students were asked about their experience working with the Financial Aid office. Approximately 88% of students reported a positive experience in dealing with the Financial Aid office. The majority of the comments were concerning the staff in the Financial Aid Office. Some of the comments were that the staff was helpful and friendly, cooperative, knowledgeable, or excellent to mention a few.

When the students were asked about the dissatisfaction with the Financial Aid office, 12% of the students responded with negative comments. Some the comments listed were stressful, need to help

more, people are rude, no one there has a clear answer, be more responsive, or lack of communication for example.

Enrollment Services Center

The survey asked students about their experience with the Enrollment Services Center. Only 7% of students gave a positive response for their experiences in the Enrollment Services Center while 93% gave negative responses about their experience. Most often mentioned was that the staff was rude and unpleasant, while some mentioned that the wait time was ridiculous even with appointments.

For students who reported making three or more visits to ATC to complete the enrollment process, responses varied. Approximately 25% of students reported having an issue with their paperwork. The majority of complaints were stated as specific paperwork was missing or not having the correct paperwork. Other responses included needing to take an entrance test, needed a tax transcript, or staff hours to name a few.

Other suggestions for improvements

At the end of the survey, students were asked to respond with any other suggestion for improvements they would like to see at ATC. Approximately 10% of students responded with a suggestion of improvements with lunch availability. Several students listed needing a cafeteria or having better food choices. One student suggested having a microwave to heat food in different buildings or student break rooms. Five percent (5%) of student responses suggested having some athletic sports or an updated gym. While there were a variety of responses, 53% of students responded of having no suggestions, which implies that students overall are happy with ATC at this time.

Addendum

Comparison of some statistical findings from the SOAR Survey 2014 and SOAR Survey 2016 are being presented. The first area being compared is the general technology use and the important of technology to students. Table 1 compares technology usage by students from the SOAR Survey 2014 and 2016. The statistics indicates that students rely on Smart phones and laptop computers, and there has been an increase in both. Table 2 shows that students indicated the importance of technology in the student's academic success. Again, there has been an increase on the importance of technology in learning.

Table 1. Technology Usage Comparison 2014 and 2016

3	I only had problems at the beginning of the semester and my information did not go in correctly.
4	nothing at this time before it was the lockout
5	8-6
6	depending what the issue will be.
7	10pm
8	when I have problems
9	Sometimes can't get into account from home
10	An example would be with blackboard and a exam not showing up.
11	All I need is someone to help me for what I'm doing.
12	IT help is not required currently.
13	None
14	Usually in the evening after 6
15	i do not need any help
16	Never
17	I work and have class all day everyday so when I go home to do an assignment between 7pm-9pm.
18	Saturdays and Sundays typically afternoon
19	Homework and Blackboard
20	Saturdays

Q19 If you answered that the current ATC Library hours are NOT adequate for your needs, please tell us which additional hours you need access to the Library:

Answered: 26 Skipped: 403

1	Needs to open by 7am
2	Later on Fridays and weekends
3	later on saturdays
4	10pm
5	More time open on the week end would be nice
6	I would like if the library opened at 7 or 7:30, because I like to go to the library to study before a test and usually my tests are at 9:00. This only gives me 1 hour to have somewhere comfortable to study. Also, since I'm busy with class and clinical through the week I try to get a lot done on the weekend. The library is only open for 4 hours on the weekend. I would like some time on Sunday or more hours on Saturday.
7	I would prefer the library to open longer on Friday's until around like 7pm and on Saturday's until like 4pm.
8	Saturday is the day of the week that I have the most time to study, I find myself distracted at home while trying to study on saturdays and would like longer hours if possible to make it to the library.
9	Till possibly 1030
10	Later hours during finals weeks would be great
11	earlier a.m hours..
12	For some people who have classes at 8 and need a quiet place to study before class starts, the current hours are not benefiting them.
13	sunday
14	As a nursing student, we have exams at 9:00 am a lot and it would be helpful if the library opened up a little earlier than 8; I would say 7:00 am would be more convenient.
15	7am
16	I would love it if they could stay open later on Saturday or be open on Sunday.
17	Open at 7:00 am

18	The library should be open 24 hours for those of us that get off work late and for those of us that have weekends off we should be able to do courework in the library on weekends and it should also be open 24 hours so that we can utilize everything that ATC has to offer
19	They Should Stay Open Till About 10 pm This Gives Even The People Who Work Late Time To Access The Library
20	Longer hours on weekends. I had a lot of exams on Mondays with no adequate place to study quietly.
21	Sat afternoon/Sunday -- exam time
22	Earlier. Maybe at 6 or 7 AM.
23	5-7pm weekdays
24	Having longer hours on Friday would be nice!
25	There needs to be more time added for Friday in addition to the weekends.
26	Early in the morning before 8

1	comfortable chairs
2	Make sure that printers have ink and paper. It's ridiculous that the library printers can be without ink for months. Have more study rooms available on campus. May be let students know which classrooms are unoccupied so that we can study there.
3	none
4	A cafe of some type would be very much appreciated
5	a few more computers they are all usally used during certain times of the day
6	Maybe open at 7am as opposed to 8. Some people have classes in there at 8am, so open doors are helpful for those who need to study before hand.
7	None
8	There is nothing I would change everyone is very helpful.
9	Librarys should be quiet for the person that uses it to study. Not a place to hang out before your next class and talk to your friends.
10	I would enjoy the library a lot more if it had quiet spaces. I would like to see mini study rooms like some of the other schools that I've visited.
11	No suggestions at this time.
12	The ATC library is very much good how it is. There no reason to change it.
13	The library is okay!
14	more hours on friday and saturdays
15	I think there should be more computers in the library.
16	More study rooms
17	The only thing wrong is that a library is supposed to be a quiet place to do work, and there are certain workers that sit in the front that are very loud and socialize. I left several times because of this.
18	Remove the "library guest" options when signing in. This process is only asking for trouble. Examples include saving personal information, keyloggers saving personal data/passwords, ease of hacking and stealing financial information due to reloading print credits via credit card. Of course the list goes on to include downloaded viruses unwanted malware intentionally or unintentionally downloaded and transferred to my flash drive ect
19	Recently there were two students playing music. clearly not very loud, but I felt like I couldn't study & I felt like in the amount of time this was going on, the staff should've noticed at some point, but they didnt.

20	N/A
21	It is uncomfortably COLD in the library!!! every time im in there I have to leave because im so uncomfortable!
22	faster speed on some of the computers
23	The library is very helpful I can not think of any changes to make it better
24	Library hours that are extended on weekends would be very helpful. USCA's library is open to 10pm on weekends.
25	From my experience, I have always been given the assistance that I needed
26	make the printer more freindly
27	When there are no classes in the class rooms inside the library. The students should be able to use them to study if everywhere else is full.
28	They should not be rude and say that a student study too much and says they will limit there study room time. How can you tell a student they study too much? We are working towards our degree and we pay plenty enough money to be able to use the library study rooms when needed! Thanks nursing students!
29	Add more sitting areas with privacy for solo study
30	Turn the air conditioning down!! It always feels like an igloo
31	I have never heard of EBSCO and would like information on what it is
32	I've only studying, to do printing, and finding the right books for my subject assignments.
33	Noone
34	I wish it was easier to find books . If you want to find them . Have subjects name of the bookcases so it is easier on the students.
35	When I visit in the morning, I can find a computer but when I visit in the afternoon there's no where to sit.
36	more private/quiet study rooms
37	enforce a quiet atmosphere to many people being loud and no one stepping in to tell them to be quiet, very distracting and annoying when trying to study
38	I do not have any suggestions.
39	library is always cold
40	There could be a few more tables for groups to set up study sessions at
41	More food options
42	No
43	less printing fee

44	The ATC Library should stay open 1 hour longer. Lke, until 10pm.
45	none
46	no other suggestions
47	I would suggest more tutors.
48	i wish the library was open at a later time.
49	I think the ATC library is already doing good.
50	I do not have any suggestions.
51	Maybe another printer sometimes lines for waiting can be long
52	that i think it should be more computers and tables for group sessions
53	The workers in the library can be very helpful and polite. Sometimes they are so loud at their desk and it can distract others trying to focus.
54	I wish there were more computers in the library. Usually when I go in there to use one they are all occupied.
55	The staff does not always know the answers to questions, I also think with the amount of tuition we pay there should be at least one printer open to everyone FOR FREE in case a student needs to print off something for an assignment ASAP and has no printing credits.
56	Free printing, more private rooms
57	more computers and study areas
58	N
59	More private study areas would help a lot.
60	Quietness should be encouraged more often.
61	We should be able to print in color there should be a fax machine in there We need better chairs
62	Pleased
63	Update magazines more frequently
64	I personally do not have any suggestions. Everything is okay with me.
65	Very comforting place to study.
66	Open earlier
67	none

68	Everything is always clean and able to get help when needed.
69	Just longer weekend hours would be nice.
70	Keep up the good work!
71	I have no suggestions.
72	Nothing, it is great like it is!
73	Posters around campus would help with information about available resources
74	Should be able to print 250 pages for free (charged technology fee), also should be able to checkout iPads/laptops like other college libraries
75	I would suggest having tutoring sessions in the Library during the time when research paper assignments so students will be more clear on where to find information, who to ask, what websites to go to, etc. Even though the English teachers set up times for the librarian to show you these things, and go through a power point, some students are still shy about asking questions and maybe that pace is too fast for them.
76	Keep up the good work.
77	I think that the library should ask students entering to show their id's, this way not just anyone can enter and this provides for better safety.
78	More online study guides books for Math and Science

1	Offer evening hours if possible.
2	Have Saturday hours.
3	n/a
4	Very helpful!
5	Tutors should learn Mr. [REDACTED] teaching style.
6	none at this time
7	Make sure all tutor in every subject are in there on the right time.
8	NEED MORE HELP WITH STUDIES FOR NURSING STUDENTS
9	Have not really used the Academic Success Center
10	Get the networking/programming teachers to offer tutoring in their related subjects.
11	It is okay!
12	needed more tutors that would know more other than math and english. would help me more
13	No suggestions, very good place.
14	pay the tutors more
15	I need to be more knowledge and understanding.I need to make understand on chalkboard
16	The Academic Success Center needs to be advertised more to students. This is my second semester at ATC, and I just went in there about halfway through the semester for the first time. I thought it was only a place where you could get tutoring. I didn't know there were computers and study space available for use. I don't need tutoring, so I'd never gone in there. I also had no idea that they offered workshops until taking this survey. I think this is a vastly overlooked resource.
17	Later times
18	Nothing
19	more willing tutors
20	To make the ATC Academic Success Center better, it should have more knowledgeable tutors in different subject areas to assist students.
21	I don't have any

22	Extended hours
23	Promote the services to the students. Many do not know what is there.
24	they have always been very helpful to me
25	posters?
26	none
27	The Academic Success Center needs more nursing student tutors.
28	Asked about health calculations before and was told that was beyond there scope. Maybe have someone designated to assist with every program the campus offers.
29	It doesn't need any improvement
30	more information through email when they are available
31	I'm always in ASC every day and it's a best place that I ever been.
32	Have not been!
33	advertise a little bit more
34	Naw
35	If students are getting help by their professors than why do you need to go into ATC Academic Success center .
36	more online help lists, not everyone has time to come in person
37	Provide more alerts about upcoming events
38	None
39	Statistics personnel 24/7
40	Nothing.
41	none
42	the tutors need to come up to the students that need help and ask if they need any help
43	i have no other suggestions
44	Have more math tutors
45	More knowledge
46	i do not believe you have to change anything, because it is such a great place.
47	I don't have any.

48	They are a great help
49	I do not have any suggestions.
50	Have more tutors in there on Fridays.
51	that the tutors should know more about what subject they are trying to help students with
52	Nothing at this time, I have never used this service
53	Advertise the different subjects/ programs that have tutors/tutoring available
54	Offer it at two different times, or on Fridays when no one has class and can make it.
55	There should be at least 3 tutors per subject available
56	Pleased
57	Registration process should be looked upon. Many students have to come back and forth to registration due to inaccurate information or incomplete information given. This makes students not want to come back and complete registration to enroll.
58	I didn't know about it
59	Heard it's great, haven't needed much help yet
60	Open earlier
61	The part on Blackboard that allows students to add/drop courses is not user friendly. It is very difficult to figure out and whenever I called/mailed for assistance, all they did was do it for me. I never really learned how to operate the website efficiently. I know that the advisors and the people at the Enrollment Center were trying to be friendly, but it is more helpful when the students are shown how to work the website.
62	Overall, the Staff and tutors in the Center are good. There is ONE i will never EVER again because He made me and several others student feel incompetent to complete Math, i came there to learn from him NOT expecting him to do my Math but to assist me and help me to see where i am hung up in learning. he was rude and this behavior was totally unacceptable. so i donot use him. I 'll wait until anther tutor comes in or I'll do another subject .
63	I like the way it is
64	none
65	I didn't use them often enough but when I did they were very helpful!
66	I have no suggestions.
67	I am satisfied with services at Success Center. I regularly visit the success center.
68	I think the academic success center is doing great!

69	The Academic Success Center is a great and quiet place to study, however I feel like they should have tutors who are have knowledge not only in the core classes, but also who have majored in other things at ATC such as manufacturing, nursing, and Industrial Maintenance. Other than that the Center is very helpful and everyone there is very kind.
70	I don't have any suggestions.
71	Constantly being bombarded with emails daily from ATC email lessens the importance so all are deleted and never read. 99% of the information and 'events' held are at times when people are working. Look at the amount of folks that are working AND going to school and try a little bit to be considerate. It is not welcoming to be outcast since everything is during regular business hours and it is impossible to attend.
72	I think that the password to use shouldn't be part of our social security number.
73	I love the success center it has been a great help to me esp last summer with statistics. Erin the best!!!!!!!!!!!!!!
74	The Academic Success Center is great I love to go in there to do my school work/homework.
75	The Academic Success center has helped me improved on my grades, studying skills, also my time management. I always enjoyed being in the Academic Success Center.

1	good
2	The new academic calendar is horrible. I would like a calendar where you can see the whole academic year on one page.
3	Very useful and helpful!
4	I was searching for information on more programs that was related more to general education versus childhood and education. I don't see much info about childcare management certificate
5	very well
6	it was confusing at first but i got the hang of it
7	I find the site easy to navigate and frequently use it.
8	meets standard
9	Classes that are required conflict with one another and are offered only one semester. Those same classes must be taken before other classes in the curriculum.
10	It was very helpful but probably should be updated so a four year old could use it. Simple is always better
11	It was pretty good and easy to navigate.
12	its confusing at times
13	n/a
14	The website is easy to use and understand. It is designed well.

36	Sometimes I have a hard time finding even my portal.
37	good
38	Helpful, sometimes not so easy to navigate.
39	it is easy for me to navigate and use
40	I like the updates. I wish that It had more information on the nursing program. I had trouble finding out what it consisted of before entering the program.
41	Very frustrating. I was able to sign up and enroll for a program that wasn't being offered anymore, and several times throughout the semester was told to sign up because they were thinking of offering it again only to have them change their minds multiple times. It said nowhere on there that the program was not being offered. When signing up for classes it was next to impossible to figure out how to search for classes, much less sign up for them before they were all full.
42	It has been very easy to access and very informational.
43	The ATC website is, overall, fairly easy to navigate and understand.
44	Good
45	Great
46	The website is fine. It was hard to maneuvered at the beginning because it was new to me and so was college.

69	Great
70	The website is useful, and easy to understand.
71	Good
72	I have had a great experience so far

73	good
74	After the update, it got more confusing. But once you find what you're looking for it's very informative.
75	It's very helpful. And gives me all the answers I need And it saves me the time of waiting in line to get the answers I seek.
76	The atc website is helpful. all the information is in one place
77	easy to use,
78	Library hours were out of date. The academic calendar does not cover all important events. My program had limited information on about what paths were available. For example I came to Aiken tech for accounting for a Bachelors. My first two semesters I was enrolled in a program that didn't have transferable credits. Transfer certificates were not even listed on the associates. If I didnt speak up and ask questions to my advisor I would not have even know about the transfer program. the associates degree classes do not transfer to USCA. I would have wasted a great deal of time here
79	An easy and resourceable website to use on the daily school bases
80	Searching a term for available classes and class sections available is easy to navigate.
81	i need to get interest through ATC
82	The website is ok to use if you're computer savvy. It takes a while to find degree programs.
83	I haven't used the new website very much since its been updated. It could have some more detailed information about the programs.
84	It is initially very difficult to navigate, but once you figure out where everything is, it is not bad at all. Had I not had someone to walk me through the registration process the first time, I would have been completely lost.
85	It is user friendly
86	The new format of the ATC website is so hard to use and understand. I have to search course offerings just to find it.
87	I have never had any problems or difficulties
88	It was great
89	No difficulties usually. Although I was able to sign up for my classes by myself for this upcoming semester & then I look the very next day and it's gone. I had to contact my advisor. I don't know if she took that option away from me or if you guys did but that is very inconvenient.
90	Great
91	Some things are not as easy to find in MyPortal, such as registering for classes and finding available classes.
92	I prefer the new layout of the website and think that it is on the right track as far as increasing functionality is concerned.
93	very easy

94	The new website is user friendly and easy to use/navigate.
95	When trying to find a program you might be interested in studying its very hard to find the credentials/requirements needed for that program and the information such as when the program is offered was very difficult.

157	I went to Enrollment Services Center and getting ready to registered.
158	Fast, User Friendly
159	My experience here at ATC is great.
160	My experience has its pros and cons. I like how easy it is to get help and succeed.
161	The website has great information and keep me informed.

163	I rarely use the ATC website.
164	Easy to use and self explanatory
165	very good
166	Great
167	It helped me find out a lot of info about when classes are canceled and what i need to know.
168	It's been helpful to see what classes I want to take for what career choice I'm doing
169	I have had a great experience using the ATI website. No problems thus far.

I looked at my transcripts and she was incorrect, so I had to go back to the office and show them that I did have 30 credits. Then the advisers could not tell me how to accept my financial aid on MyATC and insisted that I should have received an email, which I did not. Eventually, a lady at the front desk showed me how to do so. It frustrated me that the advisers miscounted my financial aid and then we unaware how to officially accept it online. I spent a lot of time at the advising office and in returning to correct the mistakes they made. It was bad enough that I considered going to Augusta Tech instead for classes.

216	They were nice very patient and willing to explain everything
217	They have been frustrating times and very productive times. At times it can be very slow in there and when you finally get to the desk the workers are sometimes rude because of maybe frustration their selves but sometimes it can make the student feel like a burden. Most of the time you can get stuff done in there and feel like you walked out with what you needed.

She's awesome and she isn't even with the financial aid office but she still answers and helps students.

250	The financial aid office has been very helpful to me in getting and applying for financial aid.
251	They can be very helpful in answering all questions and making sure you've done everything you're suppose to do before you can start classes.
252	Pleased
253	They are very helpful.
254	They answer all of my questions
255	Everyone in the financial aid office is always so kind and helpful except one of the workers named _____. She is rude and have a really bad attitude.
256	No comment..... Not good, but only because the people at the front desk in registration limits you to speak to financial aid personnel.
257	had no problems. I did it all online.
258	Very helpful
259	Pleasant
260	quick and easy process
261	They got the work done never had to speak with them.
262	Some of the staff is rude & not very helpful.
263	Financial aid is always striving to help me out with financial needs. Very satisfied.
264	Awesome

265	The personnel there was very knowledgeable and kind. I was able to accomplish things quickly with no delays.
266	Great
267	With the help of the financial aid helpers it was easy to apply for financial aid.
268	Financial aid is very slow at processing our financial aid and scholarships. We can not purchase books until it is processed. It was pretty bad when financial aid finally finished summer aid when we were in fall semester.
269	I did my fafsa online myself.
270	I got help with everything I needed without any problems.
271	The staff is very helpful.
272	great
273	Helpful
274	The Financial Aid office is competent, however I would like if it were easier to sit down and discuss financial aid matters with someone rather than having short conversations with someone at the desk. These do not always address the issue, and require multiple follow ups.
275	Great
276	good
277	Satisfactory
278	The ATC financial aid office is very quick with responses and available when I need them.
279	my questions are always answered
280	Subpar
281	Easy to do and help is always available if I had a question
282	Always been friendly and very helpful!
283	Good easy to communicate.
284	Overall decent. Had an issue this semester about not being notified about a grant that I subsequently lost due to this lack of communication.
285	It went well.
286	No one is ANY help. I have talked to someone in Financial Aid ONCE, and I never went back.
287	They were very helpful
288	It was very easy filling out the FAFSA online

289	It was okay, it's convient for me to pay online before the deadline.
290	Great. The process was very easy.
291	The people could be a little nicer.
292	It was okay for the most part.
293	Fast and quick service. Notifications are sent out early notifying when money should be available and what information is needed to complete the financial aid process.
294	helpful
295	A little tedious but once the ball gets rolling it's ok.
296	Ms. [REDACTED] is fabulous and very helpful.
297	Woderful
298	They are always helpful.
299	Nice and took their time helping
300	My experience with the ATC Financial Aid office was good.
301	Good
302	Hard to get in contact with the closer it got to the semester starting. I wasn't given all of the information I needed in order to complete my requirements.
303	Very good
304	Not having a phone number and leaving messages that claim 'will call back within 24 hours' is not true. It is a rat race to reach anyone, let alone depending on who you speak to determines if you have financial aid -inconsistent information and there is NO contact if a form is missing of you require another action for it to be complete.
305	I did not get money for books but tuition was covered.
306	They are very knowledgeable whenever I have questions or concerns about my financial aid
307	need more employees at the service desk at all times
308	it was easy and there was an issue but it was resolved soon after.
309	My experience while working with the ATC Financial Aid office was fine, I received my aid and understand the process.
310	The financial Aid office is great they help you with your financial aid all the way through. They also let you know what your missing for you to get finical aid and the also call you when your financial aid is approved.
311	With my work schedule it is hard to get to campus to during the hours of the financial aid office. I just do everything online,

312	Never a problem
313	cooperative and helpful
314	Great
315	They were very helpful
316	Very helpful and informing.
317	The Financial Aid department was a really big help with an issue I had.
318	Very good.
319	Good
320	Still waiting on FAFSA
321	They are knowledgeable whenever I had questions or concerns about it
322	Friendly staff
323	The people at the office helped me sort everything out and let me know what I needed to receive financial aid.
324	Helpful and informative
325	good experience
326	It was good
327	My experience was great with Ms. [REDACTED] that's my go to financial aid adviser. I love her!
328	They are all very helpful
329	It's alright. However, I always get direct answers from Mrs. [REDACTED] or Mrs. [REDACTED]. They are the absolute best!
330	The office is very helpful.
331	No complaints.
332	great
333	financial aid needs to be more clear on paying for books when new semester starts it gets confusing for students when they believe they are covered in full in the bookstore.
334	No problems
335	Working with the financial aid office was easy and and problems or questions I had were answered on my visit there.

1	some of the worker act like the didn't know what to do
2	The people are rude
3	Financial aid didn't cover my tuition and I had to buy my books out of my pocket. I requested a loan but never received the needed information I needed on going forward.
4	Get on the same page
5	Be more responsive
6	Please pervious page: The funds took a very long time to process.
7	I shared my experience in the previous question. The financial aid office should be able to tell me what the consequences of dropping a class in week three should be. The answer should never be "I dont know drop it and see" from a so called trained professional.
8	Need improvement
9	The advisors in the office, the freshman advisor who is a woman with blonde hair needs a lot of improvement
10	n/a
11	They need to help out more and actually know what they're talking about.
12	not all of the procedures were explained to me
13	they need to work with their communication and not wait til last minute
14	If there is a certain paper or document needed for someones financial aid, aiken tech should be able to access it themselves
15	Only one lady seem to always be bother and never took the time out to answer any of me and my mothers questions. She did not help out the way any others did.
16	very stressful
17	As mentioned previously, I found the advisers that worked with me unable to guide me successfully through the financial aid process (specifically accepting the loan online) and the lady miscounted my credits, thus only giving me first year status on my loan which made \$1,000 in difference for the school year.
18	Not helpful to transfer students. Had to use an outside source.
19	The staff is rude.
20	It is stated in the box before, no one there has a clear answer and some of the answers given are contradicting. It really messes up students.

21	I think that the financial aid office should either have more people on staff to process applications, or try to process them in a more efficient manner to ensure that the financial aid is processed in time to buy books before the semester starts.
22	they need to communicate better and be more efficient
23	The refunds take too long for us to receive them
24	.
25	Financial aid is very slow at processing our financial aid and scholarships. We can not purchase books until it is processed. It was pretty bad when financial aid finally finished summer aid when we were in fall semester. Financial aid needs to process the paperwork as soon as it comes in not wait till they feel like processing it.
26	a lot of running around to get what u need for it
27	Do better
28	I can't remember who I talked to, but I left feeling more confused than I did when I came in. No one in the office is any help.
29	Not having a phone number and leaving messages that claim 'will call back within 24 hours' is not true. It is a rat race to reach anyone, let alone depending on who you speak to determines if you have financial aid -inconsistent information and there is NO contact if a form is missing of you require another action for it to be complete. And with question below- don't you mean 2015 or 16? Why 2014? Do you even know what you are asking? I applied for this year (2016-2017) last May.
30	if there are four chairs and computers then use all four and not just two. More employees at the desk
31	The Financial Aid office could be better. It seems there is a lack of communication between the office and the Financial Aid department on what scholarships require. I was on the Life Scholarship and Vernon R. Ford Scholarship for two years. The first year, I did not have a problem. When it came time for signing up for the second year in the fall, I was still in the process of completing my last class during the summer to complete the 30 credits that were required for my first year. I was not sure if I needed to pay any fees when signing up for my fall classes last year. The office told me that I was fine and didn't need to pay anything. By time the deadline came for tuition and fees for fall, I was dropped from all my classes because of non-payment. Turns out I did not receive my year 2 financial aid because my summer class was still in the process of being completed, so I did not have my required 30 credits at the time. My scholarships came in after I completed the class and someone from the department got me back into all the classes that were dropped. I highly recommend the staff to improve on communication skills. Even if someone does not entirely know about something that another department knows, at least possibly check with them about an issue that someone has.
32	None of the advisors for financial aid are helpful except for Mrs. [REDACTED] and Mrs. [REDACTED].

1	Advisors can not answer questions about programs or AP credits. There is a lot of back and forth between advisors and other members of faculty.
2	When there are only a few people in the waiting room, it takes them 15-20 mins to call you up there. Most of the time, they never pick up the phone either.
3	Helpful!
4	The wait times were ridiculous even with appts, and even when I did see someone they were incredibly unhelpful. The information they gave me did not translate the same way coming from the actual program leaders, and often when I had questions they would send me to the program leaders who would direct me back to the first people. Additionally I have had a number of unnecessarily rude email exchanges with staff there.
5	I had to return to enrollment 4 times because of paper work I was turning in. When I get there they would say it's everything but the paper work would get mailed back telling me i'm missing stuff. This happen on 3 occasions.
6	More training for people up front
7	The actual advisors are very good, but the people that sit up front are very rude and seem to never want to help.
8	I was not informed there were not many people in my program resulting in a lack of courses being offered per term.
9	The staff are very rude and not helpful at all. Students have to go through 20 people before getting anything accomplished. Nobody ever answers the phone when I call. I've had to make several wasted trips to the college when If sometime would just answer the telephone that wouldn't have happened.
10	Same answer for as the FASA
11	There was not a single nice person in that office when I went. They always seemed in to be in a hurry and very rude. It seemed to bother them when asking questions to make sure everything was in order.
12	They do not help very well they expect you to sit and wait for long periods of time even if you only have a small question
13	Workers are rude and very un happy. Always have an attitude especially the girl with the brown short hair cut
14	My advisor failed me royally. I was unable to start the LPN to RN transition program this fall because she did not do her job.
15	At the beginning of the semester it is very difficult to get a hold of any staff member on the phone and emails are not always responded to. Some of the staff has been rude and almost irritated with helping. There have on the other hand, been very helpful staff members.
16	At times the process can be very disorganized.

17	I have had several experiences with the Enrollment center messing up my paperwork. I am a transfer student and they lost my transcripts, labeled me as an out of state student when my paperwork clearly showed that I have lived locally for over a year, etc.
18	Oh okay
19	RUDE RUDE RUDE
20	I was happy with the enrollment center when I enrolled, but not that happy recently.
21	Everytime I go in there they act stupid. I would suggest better understanding of what's actually going on. If you ask one person a question and then another person the same question you get two different responses. They also need to stay open longer. 6pm is too early for peoples' needs. They should stay open like the library.
22	My counselor has been very rude on several occasions.
23	Every time the person i was suppose to meet either was not there for the SCHEDULED meeting or they were not helpful at all. waste of my time
24	communication and attitudes
25	They do not specify exactly what you need to be enrolled
26	Never took the time out to answer any questions always rushed
27	stressful
28	The staff is uninformed. They should under go more training to better understand the information they are telling students.
29	They were unhelpful. They were rude and had attitudes.
30	No one acts like they care. They act like they hate their job.
31	very rude...
32	Every time I would go in there, the people at the front desk is rude to everyone and feel like they do not want to be there. I absolutely hate going there and try at all cost to avoid them.
33	The representatives need to be more friendly they act as though they don't want to be there and they give misleading information
34	Some of the desk workers can be unhelpful and rude. At times questions I need answered seem as a nuisance to them.
35	Incomplete information or wrong information given which caused me to come back and forth over 4 times. The attitudes there are not friendly either making the situation worse.
36	.
37	Every time I come into the enrollment center, even just for a question, I have to sign in. I personally think that is unnecessary considering I am not seeing an advisor. They also speak in a very hostile manner.

38	No one in the Enrollment Center is helpful. At all.
39	The people who work at the front desk are often not knowledgeable about some of the things going on at Aiken Tech. Almost every time I went there the first time I was told "This is a new system and we are still learning how to use it". The second time I enrolled at Aiken Tech the experience improved somewhat but I still think there is some work to be done about the above statements.
40	Most of the time your call is unanswered and since every phone call is routed to them it is a roadblock. I have left many messages and never received a return call. Simple documents (that are scanned to file) should be able to be electronically submitted, there is no consideration to folks that work full time, like we are the black sheep and don't exist so we are inconvenienced the most. Also, my initial adviser withdrew me from classes and dropped my paperwork causing me to go to the Dean to get back in my classes.
41	The Enrollment Services Center could be better. It seems there is a lack of communication between the office and the Financial Aid department on what scholarships require. I was on the Life Scholarship and Vernon R. Ford Scholarship for two years. The first year, I did not have a problem. When it came time for signing up for the second year in the fall, I was still in the process of completing my last class during the summer to complete the 30 credits that were required for my first year. I was not sure if I needed to pay any fees when signing up for my fall classes last year. Someone from the center told me that I was fine and didn't need to pay anything. By time the deadline came for tuition and fees for fall, I was dropped from all my classes because of non-payment. Turns out I did not receive my year 2 financial aid because my summer class was still in the process of being completed, so I did not have my required 30 credits at the time. My scholarships came in after I completed the class and someone from the department got me back into all the classes that were dropped. I highly recommend the staff to improve on communication skills. Even if someone does not entirely know about something that another department knows, at least possibly check with them about an issue that someone has.
42	rude members of staff
43	My advisor was fired and when I needed an override for a class, the temporary advisor had no power to do an override. It will possibly delay my graduation another semester, which I am not happy about at all. To have an entire department with no head is just slack.
44	I think some of the front desk staff is very rude and disrespectful.
45	Ms. _____ was always rude and dismissed my questions. Ms. Kate was always helpful and nice.

Q53 If you made three or more visits to Aiken Technical College to complete the enrollment process, what were the primary difficulties with the enrollment process, and what do you think ATC could do to solve these problems?

20	I had to complete entrance testing for reading, writing, and math.
21	i want to ask them about any need

22	I just had no idea what I was doing, and my enrollment advisor was not helpful at all. It seemed like every time I went to get through the process I was missing another form or piece of information and had to get that figured out before enrolling.
23	No I was told that they wasn't the person that scan my information in when I came summer semester it wasn't her fault
24	I was not informed on what I was still missing until seperated trips to the school had already been made. I travel 45 mins to get to school and a checklist stating every different thing that was needed would have been extremely helpful. High school transcript Copy of social security card Fassa Copy of drivers liscence etc
25	Transcript. accept whats on file
26	some of the staff did'nt quite know my needs, and some seem non chalant. maybe they could show the staff more on the college's amenities.
27	I don't know
28	Communication. Could not reach staff over the phone so I would have to come to campus to resolve issues.
29	Bad advising. One advisor even told me that ATC was money hungry and that I should try going to another school because I would not have to take as many classes.
30	didn't tell me what I need to do
31	paper work problems
32	Class registration and transcripts
33	Financial Aid too a while to figure out. I think it would be helpful if more help was provided. It is very hard to get an appointment with an advisor. There are very long wait times in the enrollment center. There should be a desk for "quick fixes" where students can ask a quick question or turn something in instead of having to sign in and wait behind people who are having meetings and things of that nature. You can never get through over the phone. If you want anything done you must go to the college which is a huge inconvenience.
34	Just had to gather information for my financial aid process
35	a lot of papers to turn in

43	Getting paperwork processed.
44	I just kept missing information or had questions so I would have to go back up there
45	Obtaining Student ID, Meeting with advisor, Attempting to solve financial aid problems.
46	Give a complete list of paperwork needed, not just bits at a time. advisors are usually very nice but not knowledgeable enough about programs and I wound up wasting time and money
47	The lady at the front desk would not take my application and was not helpful . I asked for information and she refused to give it to me.
48	Allow more online and email capabilities.
49	General questions.
50	First time- FAFSA wouldn't go through. I had to figure out why on my own. Second time- The reason was because it said I had already had one. How can that be if I've never attended college? I'm straight out of high school. One of the advisors helped me to make an account. Third time- After I was able to make a new account somehow, The school wasn't receiving the money. Fourth time- I was told to send in a paper to FAFSA so that they can call and ask me. Fifth time- School received the money but it took forever for me to get books since it hadn't got on my card yet. This is what I mean by miscommunication. Sixth time- I got my books and everything was on my card. I also got my refund, but the cashier in the bookstore gave me the wrong books and I bought a book for one class and we didn't even use the book.
51	Residency classification.

61	Financial aid
62	I was filed under out-of-state student and I had to gather information proving that I live in state. My financial aid didn't go through the first time.
63	Making sure that everything was on track.

64	I had to have a tax transcript that was up to their standards, I think the enrollment center could have got it themselves.
65	Better staff members
66	Mainly, my fasa.
67	most of the times i didn't have the papers that i needed and had to come back with them.
68	I never had all the documents that were needed.
69	It was all because I had questions about paper work and it was easier to visit the school.
70	I transferred from out of state and needed several documents to do so. I also had to provide an exhausting amount of paperwork and information to get in-state tuition as a military dependent.
71	It was difficult for me because I was unfamiliar with the registration process.
72	Their communication between each other.
73	one of the ladies at the front desk is very rude to everyone that comes in. she always has a nasty attitude. and i had to come back and take test and do paperwork as well
74	The primary difficulties with the enrollment process was financial aid. I did not know how to get financial aid, the staff had lost my unofficial transcript so I had to bring another one.
75	I had to take the compass test a second time and then I had to schedule for classes. I think they could've worked around the scores I had the first time .
76	The fasfa was having problems coming through to atc
77	I had to turn in paperwork and needed to have questions answered.
78	Getting things to transfer from my previous institution to ATC.
79	They send you an initial paper letter in the mail with everything you need to do but its just that the process takes some time. 89	I didn't really have any difficulties more so as questions I had about a class

91	Problems with timing if classes
92	Lack of communication as to what information they needed from me.
93	It took awhile to process my financial aid
94	Well I had to do testing then I'd then I had to meet with an advisor and then there was something else I had to come for.
95	Transcript
96	I turned in my high school transcript, take my compass, and had to come back to speak to an advisor. I like how ATC now offers the express enrollment, where you can do everything in one day.
97	losing my paper work at the front desk and extra paper work that I was told was needed then told it was not. wasted gas coming back and forth.
98	I didn't have any difficulties.
99	make sure u have everything u need so u wont have do a lot of visits
100	Getting paperwork right. Could have told me everything from the start
101	More knowledgeable employees, kinder employees, helpful employees, etc...
102	The primary difficulty of enrolling into Aiken Technical college is scheduling an adviser to discuss about registration
103	Paperwork
104	I had numerous transcripts so, some required courses for ADN program didn't initially get credited; also some were incomplete, so I had to get new copies sent.
105	Waiting for advisor or just doing financial aide
106	Information was not being received.
107	Checking up on progress required me to visit the campus. Hard to get accurate information over the phone.
108	Get all correct information
109	Change of address had to be in person, but you don't require any paperwork just a form so i didn't have to show new address, this could have been done online. Nobody can easily tell me who my adviser is. My paperwork has been messed up numerous times by office personnel not following through. Every semester there has been an issue. I have

	attended 5 colleges, 3 of them being community colleges and I have never had such a mess, if you all were any further away I would not be attending.
110	The employee did not take the time to look at my transcript. ATC should acquire employees who want the very best for students.
111	it was because i kept forgetting certain copies at home
112	Making sure my FASA was complete
113	The issue was being told I did not have to pay anything for my 4th semester since I would have my scholarship to cover everything. It wasn't in yet since my class still had to be completed over that summer and I was dropped from my classes. They could use a big improvement in communication skills between different departments at school.
114	Some of my classes were overlapping, but received help.
115	Paperwork errors, financial aid questions
116	Enrollment lost my paperwork.

Q82 Do you have other suggestions for improvements you would like to see at ATC?

1	More study rooms/areas. Lecture classroom. If a class occurs on MON and WED, the same classroom should be used each day. Better organization of programs and communication between advisors.
2	Keep up the good work! My experience at ATC has been very enjoyable. Regardless of the hard work, academically that is, the staff members have been very helpful to me in helping me succeed through this path to an Associates degree. Thanks!
3	n/a
4	no
5	A cafe either at the bookstore library or cafeteria area where people could hang out in an area that doesn't look like a prison. probably an updated paint job and maybe to get a donut shop like dunkin donuts to serve coffee and donuts every day.
6	Make sure that the students really like the professors and keep more books in stock in the bookstore and at lower prices. College students cannot afford expensive books. Often they loan books from students who have already taken that class for a much cheaper price.
7	The school website can be difficult to navigate
8	I believe ATC should have sports but besides that I believe everything is great. The awesome school I have actually told my friends from high school to move to ATC. It is an awesome school, They have been thinking about it. Two of my friends has already told a there school that they will not be there next semester.
9	We need a sports department.
10	Better electives such as languages and other cultural courses, more convenient hours for the bookstore, and more events that include family.
11	No
12	The waiting for the enrollment center is not so great.
13	It was great!
14	Better access to your advisor
15	Not at this time.
16	No other suggestions at this time.
17	No
18	Mr. [REDACTED] making more Youtube videos for all algebra courses will be a big help!
19	none at this time

20	Hire more teachers so you are able to offer more classes, especially classes later in the evening for students who work full time jobs and need to get an education at night.
21	More night or online classes for working citizens that's getting near to their degree.

36	<p>Bring back printers in the class room. The cost to print doubled and the machines barely work. Furthermore, if the printers know "Anthony Williamson" sent (X) pages to print just charge my account. There is no reason to have a log in system just to print I had to log in to print anyway. Having a log in system to make copies sure but swiping to print is excessive The library guest computer sign in option in the library needs to go it is way to vulnerable to several security risks. Give students the option to buy actual books rather than loose paper mascaraing as a book. The loose pages sold as books have no resale value and it is impossible to keep up with all the pages. The pages easily tear our of 3 ring binders and tape is not an effective means to keep them in the binder. Reduce the need for using a code to complete so many classes. CPT 101 is a classic example of a class students should not have to buy a code to complete. We are paying 502\$ plus technology fees to learn Word, Excel, and PowerPoint from a teacher. Having us pay an additional 155\$ just so "Cengage" can grade papers. Something Blackboard or the teacher could do is a unnecessary burden on students. If we signed up for a online class by all means I could understand needing a code to complete online work. There is however no reason that blackboard or in class materials could not cover the same material in many of the classes I have taken. Blackboard quizzes/test grades are still calculated by computer so teachers will not be burdened with excessive work to grade. Lastly, I have noticed from previous work experience that some of what has been taught here is "by the book." I can understand teaching people the way the book says to do things, but a lot of the things I am learning is not the way the real world operates. I am not sure if ATC is under contract to teach from the book or not, but some of these material are not the way the real world works.</p>

39	An improvement in class availability specifically EET students.
40	Established programs that can keep program directors and instructors. Nice, friendly and helpful staff willing to better educate students. Lastly a way better communication system.
41	The higher one card is very inconvenient and shouldn't be used at all.
42	Everything is great
43	I have been pretty content with my experience at ATC.
44	Work towards expanding programs into more fields and creating a more active campus life. While it may be unreasonable to expect the same atmosphere as a 4 year school, I feel like ATC is in a position to offer more programs and a culture that would make it preferable over a traditional 4 year college education.
45	no
46	More evening classes for students who work during the day.
47	<p>The staff needs to understand that the students have a life outside of the college such as jobs and families. Although furthering education is top on the list the students need to keep their jobs in order to provide for their families and themselves. So please keep that in mind when you schedule clinicals and classes. Most people can not drop things at a blink of an eye when schedules change. Most people need at least a 2 week notice so they can make arrangements.</p> <p>Not a 24 hour notice and get told oh well this is what we have to work with.</p>
48	Need a cafeteria
49	The refund process shouldn't be that I put down a percentage if u can I'm getting funds.

65	I have nothing but great things to say about ATC. I was told the truth when I initially came to the school and spoke to Mr. Weldon for information on the nursing program. I was told it is very competitive, I was led in the right direction by my advisor, I studied hard, and have succeeded in getting in the program. The cleanliness of the school grounds (as far as what can be seen from the road) is part of the reason I stopped by in the first place. I went to school at Augusta Tech years ago and it reminded me of the health department. ATC is well kept up, and I appreciate that. The teachers have all been very nice, not easy by any means , but concerned and helpful. Thank you all so much for a great experience thus far.
66	Tell us how much books cost when we come in. I have never found my needed book prices online. Staff rude and we should be prepared for what we need to spend. Its a way to take financial aid money.
67	no suggestions
68	There should be designated places for nursing students/health science students to study. Maybe a lounge or something for us to heat up a lunch or something since we are on campus all of the time.

86	I would love to see improvements on different eating locations other than the ones located in the bookstore, the enrollment services staff could be a little more nicer and the campus should have more areas to use computers.
87	If there are changes to be made for classes, policies, etc, PLEASE SEND AN EMAIL!!! I have gone through HELL signing up for classes every single semester until i go accepted into my program. I was dropped from a class that they deleted without ever being notified. When I discovered the issue and signed up for a new section, the class time was changed AFTER I re-enrolled and it caused me to get kicked out of ANOTHER class and again, was not notified. All it would have taken was a simple email that the science dept was changing things around and students should check their schedules to make sure the classes they registered for are still available
88	A microwave to heat up food in the different buildings/ student break rooms.
89	I would suggest placing better vending machines in the cafeteria so that students in a rush that need a quick snack and need to pay with card, are able to do so
90	No
91	Yes. I would love to see teachers who actually have the time to teach and advisors who will actually be there for you when things get hard. Because they are fine helping you when the system is efficient but as soon as the efficiency stops and they get confused they try to act like it's your fault or say that they can't help you. Which, I find ridiculous for people who are fresh out of high school. High school does a poor job of preparing us for college so how are we expected to just know something?

117	Change the new chair or raise the desks in the math lab in the 1000 building.
118	The school needs to offer used books for students. Only having new ones puts students in financial distress. My financial aid would not cover the cost for classes and all of my books. I paid \$600 out of pocket to purchase used books online and had to wait until the end of October to get my financial aid refund of \$450. The advising office needs to make new students aware of how to sign up for classes. My adviser knew I was a transfer and was unable to attend the new student orientation, yet he did not discuss it with me and the lady at the front desk argued about how I should have received an email telling me I had to meet with my adviser to sign up for classes. I never received an email, the ATC website did not have the spring classes listed right when we were able to sign up, and the class I wanted filled up within the first day. I almost filed a complaint, but I did not think it would make a difference with the school. My last school allowed students to sign up for classes online without advisers, so I was unaware of this school's process. I had to go to a teacher to unlock my classes because the adviser was not available when I had time even though I was told they took walk-ins. In short, the school needs to offer used books and make sure all students either receive and email or are told by advisers in advance about how to sign up for classes.
119	Saturday classes for people whom have to still work and go to school

120	No not at this time.
121	Not at the moment
122	The employees handling financial aid information need to be better informed. My experience has been very unpleasant and I have found them lacking. Other than that, my experience with ATC has been quite pleasant.
123	not that i know of, everything seems up to part with me
124	Being able to return textbooks even with taking off the wrapping cover as long as its undamaged and unused.
125	The enrollment center need to be better trained.
126	No
127	Everything at ATC is okay with me.
128	no.
129	It would be helpful if there was a better system for letting students know when to expect their financial aid refund.
130	No. It's wonderful so far!!
131	No
132	Yes i think ATC should offer classes like ASL. Also improve the online math classes.
133	I think that the nursing program should have their own building with their own little library area so that we arent 'overcrowding' the school library. The workers in the library do not like nursing students and there are alot of us. I just wish we had an assigned area that nursing students can interact and study, because there are enough of us to fill the library itself.
134	Nursing building needs to be built
135	I have no real suggestions, I love it here! Some of my former teachers have left something to be desired but every other aspect of the college has been beyond pleasant. I know we are not a large school but would like to see more campus life and student involvement in campus activities.
136	New bookstore staff. The whole staff needs to be replaced.
137	everything is good
138	No
139	More social and family activities
140	Some students are in class when lunch comes, I think if ATC gets 200 meals, 100 should be offered from 11am-12:30pm. Then the other 100 meals are available from 12:30pm-Theyre gone this way students who get out of class at 12:30 like me can still buy some lunch before the next class.
141	not at this time

142	Not right now.
143	no
144	more security during night classes.
145	More activities for students Faster refunds More food choices Courteous staff Better library hours More class schedules
146	There Should Be More Social Events To Get The Students To Interact With One Another. I Feel Like All I Do Is Come To School And Learn And That's It.... Never Really Get To Know Any Of My Class Mates Unless We Work In Groups
147	no
148	No
149	Not at this time
150	I do not.
151	I think the science center needs more funding and we as students need more convenient parking.
152	No
153	It would be pretty awesome, I don't if this is affordable, if there could be little coffee shops on campus. It would be nice to have it for in between classes or go there to hang out after class. Little branches of Starbucks, Dunkin Donuts, and Krispy Kreme would be amazing. Oh please think about that. You would probably get more students and business if those little branches were established.
154	We need Cafeteria and Sports back again at this school. its to far to go other places. The food provided is not all fresh and sometimes the sandwiches are soggy. .
155	I haven't had a problem so far in my year a half of going here so far.
156	S [REDACTED] was not a good PTK advisor nor a good teacher. I had to transfer to a different class because she was racist and did not like our interpretation of the papers we had to write. She also waited until the president, vice president, and myself (secretary/treasurer) was in class and voted a new president, vice president, secretary, and treasurer. So we were no longer in our title position because she chose to use wrong. She did the same thing to the new president, vice president, secretary, and treasurer. Please fix this so others can do well with PTK and make a difference at ATC.
157	I love ATC!
158	Nothing. I pretty much think everything about ATC is great!
159	No, I think everything at ATC is good.
160	No I'm satisfied
161	More food options available. Better food options. Even if in addition to the lunches from Chik-fil-a and Papa John's, we also had a salad or fruit option in the bookstore.

162	no
163	Some food other than what is sold in the bookstore. Preferably a salad bar or something healthy for students to choose. Fried food and pizza is not healthy for students who are trying to obtain brain knowledge.
164	I would like to see a cafeteria WITH FOOD provided for the students. I am glad I will be going to another college with more options than the horrible choices at the bookstore. No one can study well when they are hungry, and for the people that come at night, there is NOTHING for them to eat. This is highly unfair, as our tuition continues to go up yearly with no improvements made for the students, instead, the opportunities continue to decline for student life on this campus
165	There are tons of parents that attend the school, and it is harder to afford day care. A program for parents to bring their kids to some type of care while they are in class would be extremely helpful. I miss class a lot due to not having a babysitter. My mother is older in age, and she cannot watch her. I am still trying to get a job to afford day care.
166	Keep up the good work ATC!
167	More parking in the front of the facility!!! Most of my classes are in the 700/800 building, finding parking is ALWAYS a hassle. Also more parking in front of the 200 bldg
168	No I do not have any other suggestions.
169	I think there needs to be more resources to help students effectively in their future career and registration advisers needs to more helpful with new students enrolling into college
170	Bookstore should not be walled off. I feel like students are treated like prisoners. I'd like to be able to look at books/materials like most other college bookstores. I don't like having to wait in line outside. Selection of laptops via the bookstore is also pathetic. Didn't see any macbooks available either. Also, portion of financial aid could be placed on student id to use in snack machines and printing services (after initial FREE 250 pages). I also fail to understand why there is a late enrollment fee -- seems like another excuse to charge students fees.
171	more scholarships available for students who juggle work and school.
172	Yes, Students need to respect the staff members more
173	N/A
174	No
175	I would like to see sometime a way for students to use their learned skills on campus so they can practice on campus and make it so the community to see. For instance, the agriculture department (if we still have one, I'm not sure if we do or not) can be in charge of keeping the campus beautiful. Mowing the lawns, cleaning the reflective pond, etc. Manufacturing students can be in charge of manufacturing some of the stuff sold in the bookstore like coffee mugs, shirts, hats, etc to boost their knowledge and school spirit. I think these things will be very helpful also in recruiting new students. Also, getting rid of some of the no longer needed things on campus like the old 700/800 building where manufacturing classes used to take place, getting rid of extra space on parking lots no longer needed, maybe refurbishing or getting rid of the softball field since it is no longer in use. Thank you for allowing me to fill this out and Happy Thanksgiving!

176	I think in each section I elaborated on my experience with ATC. I have had a hassle every semester with Blackboard not working and submitting my work, messages and all to prove submission then get nasty emails from the directors trying to make me a liar. Nobody has willfully helped me with any of my problems except Mr [REDACTED]. My name is known for me causing a fuss to attend school. I have been through 5 schools, as mentioned earlier, and I have never had an enrollment issue, I have had issues every semester from being dropped from classes for no reason (no reason was ever found), inconsistent information, lack of courses available for working adults trying to better themselves, and the EXCESSIVE bombarding of emails like 'food is served in the Enrollment Center' - 'come join us' - 'food is gone' . Constant information about Nursing program when that only pertains to a portion of students. It has become excessive and eludes to the lack of professionalism at ATC. Why cant distribution lists be created a applicable to students in a department? Or on campus vs. distance students? Anything can be better than 6+ email a day about irrelevant information to students that are not impacted by the message.
177	I would like for ATC to have a free daycare for students.
178	NEW BOOKSTORE EMPLOYEES
179	Please find someone quickly for the engineering advisors.
180	No, I believe that Aiken Tech is a great school, with a safe campus and an almost unlimited supply of resources and aid for the students.
181	There needs to be more classes offered in the evening for those that have to work during the day. It would also be nice to have some activities scheduled for those of us who do attend classes at night. Everything is held during the day at hours that for many we can't attend due to working.
182	no
183	Again with communication, any fundraisers like the Supply Drive or Food drive, please let students know at least a few days in advanced about when it is taking place. A few days notice is better than knowing about it the day before. Also have instructors mention those fundraisers to students since some rarely check their emails. Try to get word around more and maybe more donations will come in. Not everyone goes through the building where the items get dropped off, so not everyone knows about them. Sometimes there is a lack of marker supplies for teachers to use for the white boards. One teacher I have mentioned about quality over quantity, that's a good thing. I recommend other teachers following that. The students should really feel like their teachers want them to learn. Teachers for online classes should interact more with their students. One other thing is that Blackboard is a broken website to use. It works fine and other times it does not work so much. That's not just for students, some teachers have issues too. Mainly the grades part of the site does not work so well. It would be great if a different website could be used for the school. Blackboard is also a nightmare to use on a mobile device, especially when trying to type a response on the discussion page.
184	More security, instructor in the lab at night when a lot of students are off work
185	We need better events on campus for student to want to be involved in!
186	No, because when I suggest something about an idea, Ms. [REDACTED] or Ms. [REDACTED] in the Recruitment & Student Experience office always takes it for their own personal gain. My ideas aren't safe when there are copy cats around.
187	need more scenery around campus like flowers, larger study areas in health building, and different food to eat for students like fruit and salads
188	Bigger health science building or separate building for nurses
